

mojito design   
100% made in Italy

# MANIFEST

We are dynamic Italian artists who have been working high quality plastic for over thirty years. We were born as craftsmen to become creative entrepreneurs who love experimenting new materials and techniques.

From the first blueprint to a 3D render, from molds to prototypes, to final production we take care of all the steps of the process. We have gained long-standing experience letting our imagination run wild.

We work in a workshop producing innovative concepts and original products where every idea of our customers becomes possible.

**We only have one inspiration:  
fill the world where people  
live and work up with  
carefreeness and harmony.**

## 100% MADE IN ITALY
